

About california solar container company

Overview

This container solution addresses three critical challenges that California faces right now: reducing wildfire risk, enhancing electric reliability, and expanding the capacity for electric vehicle charging in rural areas. The SolarContainer is designed for use by utilities. California Container Company has developed innovative, 100% recyclable fiber drums with a range of standard diameters for the storage and shipping of both wet and dry products. Formally founded in 2021, California Container Company has actually been perfecting the drum manufacturing process over. Through the innovative capabilities of our new enterprise affiliate, California Container Company, Morning Star now produces 100% of our fiber drums internally at our Liberty Packing facility in Santa Nella, CA. It's one more way we're expanding on our vertical integration, and providing additional. Have questions or comments about our website?
