Overview

Marking the largest industrial-scale on-site solar projects in the world, the 123-MWp site will encompass ten rooftop solar photovoltaic (PV) plants and four ground-mounted solar PV installations and is expected to significantly decarbonise the Kingdom's steel production. Manama, Bahrain—November 2, 2025: Foulath Holding, an industrial holding company with major steel investments and the parent company of Bahrain Steel and SULB, today announced its partnership with Yellow Door Energy, the leading sustainable energy developer in the Middle East and Africa, to embark. Foulath Holding has partnered with Yellow Door Energy to install a 123 MW solar project at its facilities in Bahrain's Hidd Industrial Area. This groundbreaking initiative is set to become the world's largest rooftop solar plant, supporting Bahrain's ambitious goal of reaching net-zero emissions by 2035. The BAJ Solar IPP projects is planned to have a capacity of 100 MW and to be located near Bilaj Al Jazayer, on the Southwest coast of Bahrain. Bahrain's Electricity and Water Authority (EWA) has issued a tender for the construction of a 100 MW solar power plant in Bilaj Al Jazayer, on the Southwest. His Excellency, Eng. Kamal bin Ahmed Mohammed, President of the Electricity and Water Authority (EWA), has announced the commencement of work on Bahrain's first solar power plant for electricity generation, with a planned production capacity of up to 150 megawatts. The project, which will be. Bahrain issues tender for a 100 MW BOO solar project, moving toward 20% renewables by 2035. (Illustrative Photo; Photo Credit: Jenson/Shutterstock.com) The Electricity and Water Authority (EWA) of Bahrain has launched a competitive solicitation process for a 100 MW AC utility-scale solar PV project. Bahrain energy storage projects under construction, expected funding requirement: \$900 million facilities driven by Bapco and T for long-duration storage--a first in the region. This isn't s growing expertise in battery storage technology. The proje hifting faster than desert sands in a shamal wind.

Bahrain solar container projects under construction

Bahrain signs deal to build the country's largest solar plant

Bahrain has signed a deal for Sakhir project, the nation's largest solar power plant, Bahraini state news agency reported. Situated in the southern ...

EWA Announces the Launch of Bahrain's First Solar Power Plant in

The solar power plant will be located in the southern region of Bahrain, near Bilaj Al Jazayer, covering a total area of approximately 1.2 square km. The project will utilise the latest ...

Seef Properties launches major sustainable energy project in Bahrain

With a strong track record and a growing portfolio of 31.5 megawatts-peak of solar projects in Bahrain, Yellow Door Energy continues to bring affordable, reliable, and sustainable ...

Bahrain launches tender for 100 MW solar project

Bahrain's Electricity and Water Authority (EWA) has issued a tender for the construction of a 100 MW solar power plant in Bilaj Al Jazayer, on the Southwest coast of Bahrain.

Bahrain energy storage projects under construction

Stay informed about the latest Bahrain projects across a wide range of sectors, including construction, power, renewables, desalination, water, public-private partnerships (PPP).

Construction begins at Bahrain's first solar project

The project will be developed in collaboration with the private sector. The facility will be located in the southern region near Bilaj Al Jazayer, covering an area of about 1.2 square kms, and ...

Bahrain receives nine bids for General Sports Authority's 3MW solar ...

Bahrain's the Ministry of Electricity and Water Affairs (MEWA) has received bids from nine companies for a 3-megawatt (MW) grid-tied solar PV power plant for the General Sports Authority.

Seef Properties launches major sustainable energy project in Bahrain

Seef Properties Chief Executive Officer, Ahmed Yusuf said: "The deployment of solar panels across Seef Properties' locations will set a benchmark for large-scale commercial solar ...

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Bahrain's biggest solar plant to go onstream by year-end

By the end of the solar implementation project, APM Terminals Bahrain will have installed 20,000 solar photovoltaic panels capable of generating 18.5 gigawatts of electricity per year.

Foulath Holding and Yellow Door Energy Launch 123 MWp Solar Project

Foulath Holding, the parent company of Bahrain Steel and SULB, has partnered with Yellow Door Energy, a leading sustainable energy developer in the Middle East and Africa, to ...

Bahrain's 44 MW Solar Power Project Draws Competitive Bids

This project is integral to Bahrain's broader strategy to transition toward renewable energy and reduce its carbon footprint. Driven by a growing emphasis on sustainability, the Kingdom ...

Bahrain Sets Global Impact with Record-Breaking Rooftop Solar ...

Developed under a power purchase agreement ("PPA"), this milestone project includes the construction of the world's largest single-site rooftop solar power plant with a capacity of 50 ...

Construction work begins at Bahrain's first solar project

The Electricity and Water Authority (EWA), Bahrain has commenced work on Bahrain's first solar power plant for electricity generation, with a planned capacity of up to 150 MW.

72-MW solar power project to support Bahrain's efforts ...

It is worth noting that the 72-megawatt multi-site solar photovoltaic power project, which is located in Sakhir, comprises rooftop, ground-mounted, car park solar ...

Power plant profile: Al Dur Solar Power Project, Bahrain

Al Dur Solar Power Project is a 100MW solar PV power project. It is planned in Southern, Bahrain. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the ...

Construction begins at Bahrain's first solar project

The project is part of Bahrain's National Renewable Energy Plan, which aims to raise the share of clean energy to 20 per cent of the national energy mix by 2035. Once operational, it is ...

Bahrain Issues International Tender For 100 MW AC Solar Farm

The Electricity and Water Authority (EWA) of Bahrain has launched a competitive solicitation process for a 100 MW AC utility-scale solar PV project targeting a commercial operation ...

Bahrain PROJECTS AT A GLANCE

PROJECTS AT A GLANCE * E& P = Engineering and procurement; EPC ITB = Engineering, procurement and construction invitation to bid; FEED = Front-end engineering and design; PMC = ...

Bahrain's port to host \$10 million solar project

The A.P. Moller-Maersk subsidiary says that by installing 20,000 solar photovoltaic panels, it will make Bahrain's Khalifa Bin Salman Port the region's first seaport to be fully powered by

Bahrain sets new global benchmark with world's largest rooftop solar

As project developer, Yellow Door Energy will oversee financing, design, construction, and operation under a long-term power purchase agreement, allowing Foulath to cut energy costs while ...

Bahrain rooftop solar project: Stunning 123 MW Launch

Together, they will implement a groundbreaking 123 MW solar project in Bahrain's Hidd Industrial Area. This project is not just the largest rooftop solar installation in the Kingdom but is ...

"Bhageria Industries Ltd Secures First International Solar EPC Project

The company revealed its successful turnkey international Solar Engineering, Procurement, and Construction (Solar EPC) project, complete with comprehensive Operation & ...
