Which battery? D3 start/stop

I'm having a few issues with my v40 which include the air con only blowing cold out one side and warped disks, the immobiliser cut in at 50mph once (but I think that was key battery ...

New Battery

So I think the time has come to replace the main battery. Its the original Volvo 70ah EFB battery that was on the car from new in 2016.. The car starts fine but I keep getting the "Low Battery ...

Outdoor Cabinet BESS
50 kWh/500 kWh Battery Storage System
Industrial and Commercial Energy Storage

- All in One**
Integrating battery packs
- High-capacity**
50-500kWh
- Degree of Protection**
IP54
- Operating Temperature Range**
-20~60°C.(Derating above 50 °C)
- Intelligent Integration**
Integrated photovoltaic storage cabinet
- Rated AC Power**
50-100kW
- Altitude**
3000m(>3000m derating)

Start/Stop requires service , Volvo V40 Forums

Try charging the battery. 12.3 volts is a little low. Do you regularly travel short distances or use the infotainment system whilst the engine isn't running? If possible, use a microprocessor ...

Household Battery Recycling

Household battery recycling locations Lead-acid batteries, or "automotive type batteries," are banned from disposal. Consumers may bring lead-acid batteries to any Wisconsin retailer that sells these ...

U012D87 DTC any ideas? , Volvo V40 Forums

The battery voltage was still 11.9V. I started the engine again while measuring, and this time the voltage briefly rose to 13.4V, as if the battery was charging. But after about 30 seconds, it ...

Battery issues

I've had both batteries replaced (with the correct models), done a 100 mile trip, overnight smart battery charge, charging voltage is fine, system messages cleared but I am still getting "low ...

Help, where's the power steering system fuse?

Was the battery recharged via a body earth, or with the charger connected to the battery negative? If the latter it may need a battery reset. Easiest way to do that is to leave the car locked ...

"Low Battery Charge" HELP

Have the battery checked at dealers - and just using a multimeter on the battery won't show duff cells in the battery. A new battery-cured mine - any decent auto-electric garage could do it. ...

Battery replacement question. , Volvo V40 Forums

The main battery is the one to look at. The secondary battery is only connected to the car by a relay for a fraction of a second during an engine restart from a stop/start event, when it ...
