

Emoose solar container

Overview

With its 600-watt solar panels and 2,400-watt total output, it can provide enough power for 99 per cent of all common household appliances. This practical and versatile everyday helper boasts six USB ports, three classic AC sockets and a car charging socket. [LED Smart Touchscreen]E Moose is the first brand to use the original LED smart touchscreen technology on portable power station, which enables you to operate it as easy as controlling a cell phone, precisely control the power, and putting power mastery at your fingertips. [Compatible with 99%. emoose power stations supply power to almost all electronic devices, from gadgets like mobile phones, cameras, and laptops to more power-hungry appliances such as portable heaters and refrigerators, electric grills, power tools, and coffeemakers. This means that our power stations fit users' needs. emoose (yes, it's not capitalized) is changing that with their GIGA X1500. With a massive 1502 watt-hours capacity and 2400 watt rating, it's got more juice to go around than most of the small power stations. That 1502 watt-hours only weighs 31.9 pounds as well. So easier to carry. If you need more. The Emoosé Giga X1500 portable power station meets the needs of users with high power consumption anytime and anywhere. The two handles make the unit easy to transport, and the display allows for easy control and monitoring. With its 600-watt solar panels and 2,400-watt total output, it can provide. The emoose Giga X1500 stands out from the crowd by bringing some new features to the increasingly competitive power station space Support us!
