

Global new energy industry solar container conference launched

Overview

On June 10, the much-anticipated “ SNEC PV&ES 18th (2025) International Solar Photovoltaic and Smart Energy & Storage and Battery Technology & Equipment (Shanghai) Conference” (known as SNEC PV&ES) opened in grand style at the InterContinental Shanghai Expo. The conference theme "Integration of PV and Storage, Smart Leading the Future" will bring together global PV and energy storage leaders, experts, and officials to discuss energy transition and technological innovation. Industry Trends SNEC 2025 showcases cutting-edge technologies and innovations in. Facing energy security, pollution, and climate change concerns, many countries have shifted toward renewable energy and introduced various plans to adjust their energy structures, aiming to achieve a clean power supply through new energy sources. In recent years, the development of renewable energy. Expanded mandate positions Global Solar Council as the first global industry association to unite solar plus battery storage - the essential building block of a future powered by affordable, reliable, and renewable energy. GSC kicks off evolution by outlining recommendations for scalable solar plus.
