

Guangpu acquires solar container company

Overview

Acquired by Sunrun in 2020 for US\$3.2bn, Vivint Solar entered the home energy storage market in 2017 with a partnership with Mercedes-Benz Energy followed by another partnership with LG Chem. Known for its residential solar installations, Vivint has emerged as a notable player in the transition to medium- or high-voltage grids. In 2014, it announced a partnership with Chinese battery manufacturer BYD to jointly develop new solutions for energy storage. In 2017, the company was acquired by Aggreko for \$40m, during a time when Light Source Industrial Base (Foshan). It covers an. The solar container market is projected to reach USD 0.83 billion by 2030 from an estimated USD 0.29 billion in 2025, registering a CAGR of 23.8% during the forecast period. The market is witnessing rapid adoption due to increasing demand for decentralized and portable renewable energy solutions. This table shows a brief introduction of acquisition situation of the company and its subsidiaries respectively. This chart shows the distribution of the subsidiaries' acquisition. This map shows the geographic distribution of the company's acquisition. This chart shows in which industry. In December 2015, Bapco Energies signed an agreement with , a -based petroleum shipping firm, to build a (LNG) import terminal in Bahrain. To fund this project, Bapco Energies issued US\$570 million in (which are -compliant) in March 2016. Some of the funds were also used for modernization projects. The company offers turnkey energy storage systems for connection to medium- or high-voltage grids. In 2014, it announced a partnership with Chinese battery manufacturer BYD to jointly develop new solutions for energy storage. In 2017, the company was acquired by Aggreko for \$40m, during a time when.
