

# How long does the jaeger-lecoultre master store energy

## 12.8V 100Ah

## Overview

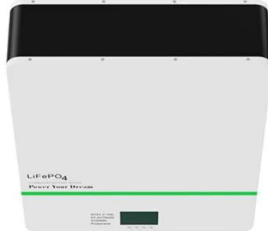

---

Jaeger-LeCoultre's expert watchmakers have fully re-engineered this automatic movement to deliver a remarkable 70-hour power reserve, a dramatic improvement over its predecessor. The latest-generation Calibre 868 offers a robust power reserve of 70 hours. Among the most challenging complications to master, a perpetual calendar must automatically adjust for months of different lengths and for leap years. Unlike a simple date display, which must be adjusted at the end of the month, the latter performs 21,600 or 28,800 vibrations per hour depending on the model (see technical characteristics). magnetic fields, shocks, as well as ageing of the oils. This accuracy is measured by its rate regularity in various positions. may cause slight variations in timekeeping. If you were to. The last iteration of the Caliber 938 movement had 43 hours of power. With only minor changes - a redesigned mainspring barrel and some key components made of silicon - JLC has reduced friction in the movement and now gets 70 hours out of the caliber. The watch looks to be a boutique exclusive and. That's exactly what Jaeger-LeCoultre has done with their Calibre 938. The in-house automatic winding movement now boasts an impressive power reserve of 70 hours. For many, this is the perfect length of power reserve in mechanical watches; you can take the model off your wrist on the Friday and put. Jaeger-LeCoultre has long been revered among horology enthusiasts as the "Watchmaker's Watchmaker" for its mastery of complications and its ceaseless innovation. The Manufacture has now unveiled an exciting new iteration of its iconic Master Ultra Thin collection - the Master Ultra Thin Power. The Master Ultra Thin collection epitomizes Jaeger-LeCoultre's philosophy of watchmaking, uniting timeless beauty with mechanical virtuosity to create the quintessential dress watch for the modern aesthete. In 2023, the collection is enriched by a new interpretation of the Master Ultra Thin Power.
