Immersion liquid cooling solar container

Haptics Resource Library

Immersion - Innovating for the Future. We're here to develop and expand the use of haptic technology to improve people's interactions with their digital environment, making it intuitive, engaging, and helpful.

Haptic Technology

Build faster with Immersion Product Development Kits With the right information for building a haptic system, going from start to finished is much easier. Immersion's product development kit provides ...

Beyond the PlayStation 5

These devices are capable of much greater levels of immersion and information bandwidth due to the parallel nature of tactile stimulation. There are other technologies and companies, of ...
