- Efficient Higher Revenue**
  - Max. Efficiency 97.3%
  - Max. PV Input Voltage 600V
  - 100% Peak Output Power
  - 2 MPPT Trackers, 150% DC Input Overloading
  - Max. PV Input Current 15A, Compatible with High Power Modules
- Intelligent Simple O&M**
  - IP65 Protection Degree, support outdoor installation
  - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
  - DC & AC Type II SPD, prevent lightning damage
  - Battery Reverse Connection Protection
- Flexible Abundant Configuration**
  - Plug & Play, EPC Switching Under 30min
  - Compatible with Lead acid and Lithium Batteries
  - Max. Current Inverter Flexible
  - AFC Function (Optional): when an arc fault is detected the inverter immediately stops operation

### How to build a solar powered cyber cafe , A standard shipping container

A standard shipping container that converts into a fully functional Internet cafe for 11 users at a time. The cafe requires little power due to the thin client network, which includes 11 flat screen monitors that ...
