

Iraq solar container electricity fee subsidy announcement

Overview

The 2025 focus is on decentralized solar-storage systems to address frequent blackouts (10-15 hours/day in some regions). Incentives include subsidized financing for off-grid solar and foreign investment laws, though grid modernization and regulatory clarity lag. The government plans to support this through a national platform for solar market regulation (licensing, quality, training), encouraging public-private partnerships, and providing loans, including Central Bank initiatives. To strengthen environmentally-friendly business practices in #Iraq, IOM. revenues have been decimated by low oil prices. The alternative of continuing to rely on direct state financing of large projects only inc eases the risk that these projects are delaye ce Iraq's collective climate change objectives.
