## Overview

---

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving solar storage container performance while reducing costs. After 18 months of delay due to Covid border lockdowns, a World Bank-funded revamp of power systems at the Marshalls Energy Company is moving into its next phase. Three technicians from the China-based corporation Sinosoar arrived in Majuro last month after four weeks of quarantine to begin working. The objective of the Sustainable Energy Development Project is to increase the share of renewable energy generation and enhance the reliability of electricity supply and improve energy efficiency in the Marshall Islands. The project, implemented by MEC, has a budget of \$34 million and a lifespan.
