

# Natural gas storage policy

## Overview

---

The Public Policy on Natural Gas Storage establishes the obligation to create a minimum of 5 days of strategic natural gas inventory (45 trillion cubic feet) by 2026. Want to know more about this policy ?

Learn more. The underground storage of natural gas has historically been critical in assuring that overall demands and use of specific requirements of natural gas customers are met. The Energy Policy Act of 2005 added a new § 4 (f) to the Natural Gas Act, stating that the Commission may authorize natural gas. WASHINGTON – Surging demand for energy has created an urgent need for more natural gas storage, according to a new report from the American Gas Association. The report, titled *Assessing the Value of Natural Gas Storage: A Strategic Asset for Grid Reliability, System Resilience and Operational*. Totals may not equal sum of components because of independent rounding. Working gas in storage was 3,185 Bcf as of Friday, January 9, 2026, according to EIA estimates. This represents a net decrease of 71 Bcf from the previous week. Stocks were 33 Bcf higher than last year at this time and 106 Bcf. The IEA has discontinued providing data in the Beyond 2020 format (IVT files and through WDS). Data is now available through the .Stat Data Explorer, which also allows users to export data in Excel and CSV formats. A problem with this policy?

Tell us and we will take a look. The Public Policy on. New research shows that surging demand for energy has created an urgent need for more natural gas storage. In *Assessing the Value of Natural Gas Storage: A Strategic Asset for Grid Reliability, System Resilience and Operational Flexibility in a Changing Energy Landscape*, emerging pressures on. Forms EIA uses to collect energy data including descriptions, links to survey instructions, and additional information. Subscribe to feeds for updates on EIA products including Today in Energy and What's New. Short, timely articles with graphics on energy, facts, issues, and trends. Lesson plans.

## Natural gas storage policy

---

### Ensuring Safe and Reliable Underground Natural Gas Storage

The Task Force identified three principal research areas associated with natural gas storage facilities: minimizing the risk of well failures; reducing health and environmental impacts of major leak ...

### US carbon pollution rose in 2025. Experts blame cold winter, high

The increase in greenhouse gas emissions is attributable to a combination of a cool winter, the explosive growth of data centers and cryptocurrency mining and higher natural gas prices, ...

18650 3.7V  
Li-ion  
RECHARGEABLE BATTERY  
**2000mAh**

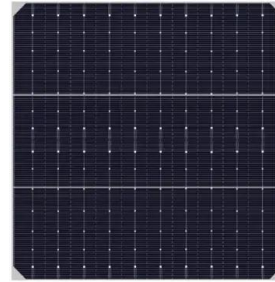

### Fact Sheet: Ensuring Safe and Reliable Underground Natural Gas ...

This Task Force, which convened at the White House, was created as a part of the Administration's ongoing commitment to support state and industry efforts to ensure the safe storage of natural gas.

### New Report: Natural Gas Storage Is A Cornerstone for Grid Resilience

A new report from the American Gas Association (AGA) reinforces the critical role of natural gas storage in supporting this vision. AGA's report comes amidst major regulatory changes to ...

### **Gas Research Programme , Oxford Institute for Energy ...**

The Gas Programme, launched in 2003, has become one of the foremost sources of independent academic research on gaseous fuels and their role in the energy

### **Natural Gas Storage is a Critical Balancing Tool Across the Energy Grid**

As the energy system continues to evolve and diversify, natural gas storage remains a cornerstone of energy reliability. Underground natural gas storage is a strategic tool for balancing demand and ...

### **STORING OIL AND NATURAL GASSAFELY**

Applies to natural gas storage in depleted oil and gas reservoirs and aquifer reservoirs, and focuses on storage well, reservoir, and fluid management for functional integrity in design, construction, ...

### Downstream (petroleum industry)

The oil and gas industry is usually divided into three major sectors: upstream, midstream, and downstream. The downstream sector is the refining of petroleum crude oil and the processing and ...

### New Report Confirms that Storage is More Important than Ever

The report recommends policy considerations and strategic actions related to storage to support energy reliability, affordability and security, including more flexible natural gas storage to ...

### 1305 Stallings Parkway A, New Bern Property Listing: MLS® ...

Unit has a side patio area with a partial vinyl privacy fence. Has a storage closet on the back side of the unit. All utilities are with the City of New Bern, and gas service is with Piedmont Natural Gas for heat. ...

### Tracking the energy transition: Where are we now? , McKinsey

After a turbulent year, we measure progress in the deployment of clean energy technologies in China, Europe, and the United States against net-zero targets.

### Storing Oil and Natural Gas Safely Natural Gas Storage - ...

Applies to natural gas storage in depleted oil and gas reservoirs and aquifer reservoirs, and focuses on storage well, reservoir, and fluid management for functional integrity in design, construction, ...

### HB633 , Virginia 2026 , Commission on Electric Utility Regulation

Renames the Commission on Electric Utility Regulation as the Energy Commission of Virginia and amends the purpose of the Commission to monitoring the State Corporation Commission's regulation ...

### Carbon sequestration

Biological carbon sequestration (also called biosequestration) is the capture and storage of the atmospheric greenhouse gas carbon dioxide by continual and enhanced biological processes. This ...

### Public Policy on Natural Gas Storage - Policies

The Public Policy on Natural Gas Storage establishes the obligation to create a minimum of 5 days of strategic natural gas inventory (45 trillion cubic feet) by 2026.

## Weekly Natural Gas Storage Report

At 3,185 Bcf, total working gas is within the five-year historical range. For information on sampling error in this report, see Estimated Measures of Sampling Variability table below.

### Southcentral Alaska utilities move to expand gas storage, an ...

The storage will help meet seasonal customer demand in winter, and can help manage liquefied natural gas when it is imported to Alaska as expected in the coming years, the utilities say.

### The weather proving to European climate warriors that stupid is as

The leaders of Europe have put their people in jeopardy with their insane climate policies. They remain heavily dependent on Russia for natural gas. The Russian winter is turning punishing, ...

### Natural Gas Storage Dashboard

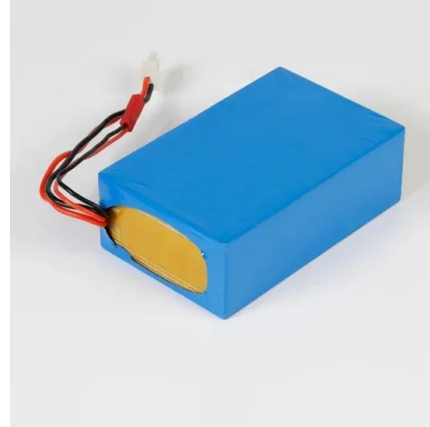

Forms EIA uses to collect energy data including descriptions, links to survey instructions, and additional information. Subscribe to feeds for updates on EIA products including Today in Energy and What's ...

## Assessing the Value of Natural Gas Storage

Recognition of Storage's Full Value: Storage offers more than economic returns; it contributes to reliability, resilience, emergency preparedness and consumer protection. These broader benefits
