

New blue ocean of solar container

Overview

A newly built inland dry goods vessel, Blue Marlin, was named last week in Hamburg, Germany, and became the world's first hybrid solar-power inland shipping vessel, as well as receiving a designation for remote-controlled operations. Blue Marlin's solar system provides power to the propulsion system and in optimal conditions will entirely power the vessel (HGK)

Published Jul 7, 2025 7:45 PM by The Maritime Executive

A newly built inland dry goods vessel, Blue Marlin, was named last week in Hamburg, Germany, and became the. The 126 MW Omkareshwar Floating Solar Park spans 642 acres, boosting green power. Kurt Knutsson reports on this innovative solution to global energy challenges. NEW You can now listen to Fox News articles! The world's first hybrid solar cargo ship has just launched in Germany, marking a major. The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now account for approximately 35% of all new utility-scale storage deployments worldwide. North America leads with 40% market. The Blue Marlin is a new hybrid inland cargo vessel revolutionizing the shipping industry. The ship, developed and launched by Dutch solar company Wattlab and German inland shipper HGK Shipping, debuted in July, according to Interesting Engineering. It is the first vessel to use solar energy to. The Blue Marline is the first inland shipping vessel capable of hybrid sailing with solar power. Wattlab Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar-powered inland vessel as part of an ambitious initiative to. Dutch solar technology company Wattlab and Germany's HGK Shipping have unveiled the world's first hybrid inland cargo vessel powered by solar energy. The vessel, named Blue Marlin, is equipped with 192 solar panels that supply power to both the onboard systems and the vessel's high-voltage.

The hunt for habitable ocean worlds beyond our solar system

Space The hunt for habitable ocean worlds beyond our solar system Astronomers think that planets covered in water, with oceans hundreds of metres deep, could be relatively common in ...

World's first inland solar ship to glide on sun power with 192 panels

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar-powered inland vessel as part of an ambitious ...

Seize the new blue ocean of photovoltaic power in North Africa! Senta

High-efficiency folding structure: It adopts double-sided TOPCon solar panels and innovative folding brackets, significantly reducing the unfolding time and labor.

The Trillion-Dollar Energy Storage Blue Ocean: Where Innovation ...

By connecting storage with EVs, solar farms, and even coffee shop microgrids, Shenzhen created an ecosystem where every watt finds its perfect home. Want to surf this trillion-dollar energy ...

Solar + Battery Powered Shipping Container Tour ,Off Grid Tiny Home

The team at RPS developed this unit after years of testing the solar panels, batteries and inverters for our own company offices. The Instant Off-Grid(TM) Shipping Container provides an all-in-one solar ...

In LA port, bobbing blue floats are turning wave power ...

Wave energy could also complement wind and solar to stabilize the electric grid. Eco Wave Power installed its technology at the port's AltaSea ocean institute, a ...

Blue Marlin Becomes World's First Solar-Powered Inland Cargo Vessel

The solar system on the Blue Marlin is more advanced. Unlike the Helios, the Blue Marlin's solar power setup is fully integrated, meaning it supports both low-voltage systems (like lighting and ...

Manufacturers unveil first-of-its-kind cargo ship that could

The Blue Marlin is a new hybrid inland cargo vessel revolutionizing the shipping industry. The ship, developed and launched by Dutch solar company Wattlab and German inland shipper ...

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5

Seize the new blue ocean of photovoltaic power in North Africa! Senta

Seize the new blue ocean of photovoltaic power in North Africa! Senta Energy showcased its folding photovoltaic container at the International Solar Energy Exhibition in Egypt ...

In LA port, bobbing blue floats are turning wave power ...

At the Port of Los Angeles on a site that once housed oil tanks, seven steel structures that look like small blue boats are lowered into the ocean, where they ...

Blue Marlin Becomes World's First Hybrid Solar-Powered Cargo Ship

Dutch solar technology company Wattlab and Germany's HGK Shipping have unveiled the Blue Marlin, the world's first hybrid solar-powered inland cargo vessel. Officially christened in ...

HGK Launches First Inland Cargo Vessel Capable of ...

A newly built inland dry goods vessel, Blue Marlin, was named last week in Hamburg, Germany, and became the world's first hybrid solar-power inland shipping vessel, as well as ...

It's Nearly Time to Say Goodbye to the International Space Station

It will be joined by the other commercial ventures --Axiom Station, Blue Origin's Orbital Reef, and Starlab. New priorities may come with any new private era in Earth orbit.

Solar + Battery Powered Shipping Container Tour ,Off Grid Tiny Home

Mike with RPS introduces you the product, the Instant Off-Grid Container, an all-in-one solar off-grid unit with a battery bank that can serve as a tiny home, office, hunting cabin and tack room.

Beyond the Harbor: Electrifying Short-Sea Routes and Hybridizing Blue

See why 100 MW of offshore wind, 300 MWh of storage, and smart charging will power electric shipping corridors and hybrid deep-sea fleets.

Solar Reefer: Clean Energy for Refrigerated Containers

A solar reefer could help reduce this cost, but with current technology it won't eliminate it. As solar panel performance and strength improves it's worth revisiting. Soon a solar reefer may shift ...

"This Solar Ship Is the Future of River Travel," Declares ...

The dawn of a new era in shipping has arrived with the introduction of the Blue Marlin, the first inland vessel capable of harnessing solar power for

"This Solar Ship Is the Future of River Travel," Declares Visionary

In a groundbreaking shift towards sustainable maritime transport, the Blue Marlin debuts as the world's first inland vessel to harness solar power directly for propulsion, setting a new ...

BELIZE BLUE OCEAN NEW ENERGY STORAGE

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

Solar Containers is a portable energy revolution for all uses

What Is a Shipping Container with Solar Panels? Solar shipping container condenses it all into electricity production and energy storage in a 40-foot or 20-foot shipping container, plug-and ...
