

Solar container acquisitions

Overview

The month of August witnessed several significant acquisitions that highlight the ongoing transformation within the sustainable energy sector. Each deal reflects a strategic move aimed at enhancing capabilities and offering innovative solutions to meet customer needs. Otovo, a European solar operations and maintenance service firm headed by former Sunnova CEO, enters California residential market with acquisition of Solar Service Professionals. The \$285 million acquisition of utility-scale assets follows a Chapter 11 filing by the major North Carolina developer. The solar container market is projected to reach USD 0.83 billion by 2030 from an estimated USD 0.29 billion in 2025, registering a CAGR of 23.8% during the forecast period. The market is witnessing rapid adoption due to increasing demand for decentralized and portable renewable energy solutions. The Port Authority of New York and New Jersey, Port Newark Container Terminal (PNCT) and the city of Newark today announced the completion of a 7.2 megawatt (MW) solar installation at PNCT. The solar installation now generates 50 percent of the terminal's annual energy needs, greatly reducing. In September 2025, the landscape of mergers and acquisitions (M&A) within the sustainable energy and infrastructure sectors continues to evolve rapidly. The momentum seen in recent months indicates a growing trend among companies to consolidate resources, diversify portfolios, and expand their.
