

Solar container enterprise tax classification code

Overview

The links below correspond to the various sections in the HTS Table of Contents. Clicking on a link will download the corresponding Adobe PDF file. The Standard Industrial Classification (SIC) was originally developed in the 1930's to classify establishments by the type of activity in which they are primarily engaged and to promote the comparability of establishment data describing various facets of the U.S. economy. The SIC covers the entire. The Harmonized Tariff Schedule of the United States (HTS) sets out the tariff rates and statistical categories for all merchandise imported into the United States. The HTS is based on the international Harmonized System, which is the global system of nomenclature applied to most world trade in. This list of Principal Business Activities and their associated codes is designed to classify an enterprise by the type of activity in which it is engaged to facilitate the administration of the Internal Revenue Code. These Principal Business Activity Codes are based on the North American Industry. The codes listed in this section are a selection from the North American Industry Classification System (NAICS) that should be used in completing Form 990, Part VIII, lines 2 and 11. If you don't see a code for the activity you are trying to categorize, select the appropriate code from the NAICS. The Standard Industrial Classification Codes that appear in a company's disseminated EDGAR filings indicate the company's type of business. These codes are also used in the Division of Corporation Finance as a basis for assigning review responsibility for the company's filings. For example, a. solar container technology service tax code HS-codes.com is specialize in providing harmonized tariff numbers and commodity codes.
