Overview

SOLAR CLOSURE: The Trump administration and major energy companies want to shutter one of California's most iconic renewable energy facilities. State regulators are poised to stop them. SOLAR CLOSURE: The Trump administration and major energy companies want to shutter one of California's most iconic renewable energy facilities. State regulators are poised to stop them. California Public Utilities Commission leaders are scheduled to vote Thursday on their staff's recommendation. Canadian Solar Inc. has announced today that it is restructuring its United States operations, resuming direct control over its manufacturing assets in solar and storage while reshoring operations. The company announcement details that it would form a new joint venture, CS PowerTech, to operate its. In the middle of California's Central Valley, a new way to use solar panels could change how we think about clean energy and water. It's a simple idea that people have talked about for decades, but only now is it finally being tested in real life, thanks to Brandi McKuin at UC Merced, whose study.
