

Solar container shipments ranked third in the world

Overview

LONGi Green Energy followed in second place with 82.32 GW of shipments, while JA Solar ranked third with 79.447 GW. Trina Solar claimed the fourth spot with over 70 GW shipped. As the financial reporting season for 2024 concludes, the global solar photovoltaic (PV) industry has unveiled its latest shipment rankings. According to official data, JinkoSolar emerged as the top PV module supplier in 2024 with an impressive shipment volume of 92.9 GW, securing the global No.1. Compared with the previous year, the total shipment volume of the top ten manufacturers in 2023 was 413 GW, while that of 2024 reached 502 GW. Despite a 22% annual growth rate, sluggish demand and oversupply in 2024 have hindered the momentum for significant annual growth. According to InfoLink's. PVTIME - In terms of shipments in the first three quarters of 2024, there should be no suspense in the top 10 list of global PV module shipments, with Jinko Solar now leading JA Solar by around 10GW with shipments of 67.65GW in the first three quarters, followed by LONGi and Trina with 16GW and. TrinaTracker ranked third for shipments to emerging markets such as South America and the Middle East. The renowned research institution S&P Global has published the Solar Tracker Market Report 2024, which says global shipments of solar trackers reached 94GW in 2023, 29% more than in 2022. Global. InfoLink Consulting says global module shipments rose 10% to 247.9 GW in the first half of 2025, with JinkoSolar narrowly pushing past Longi and tunnel oxide passivated contact (TOPCon) tech accounting for more than 94% of the total. Taiwan-based research firm InfoLink Consulting said the world's. Solar Space surpassed industry peers to the third after long-term investment and production expansions in non-China markets. Jietai and Runergy rounded up the list to include the same manufacturers as in 2022, with rearrangements from the third and the fifth places. Not making it to the list.
