

Solar container unilateral transaction

Overview

When a solar project is owned by an independent power producer rather than a utility serving its own load, the agreement that provides for an assured source of revenue from the energy output and related environmental attributes of the project is central to the project's viability. These key activities are suggested steps EECBG Program awardees can take to begin or make progress within their selected blueprint. The Blueprint How-To Guides, in contrast, provide additional detail to help practitioners get going. Awardees can reference these more granular steps, recommendations.
