

Waterjet accumulator oil leakage

Waterjet accumulator oil leakage

MAXIEM Waterjet

Expert factory training and a global network of technical support specialists make it easy for expert and novice waterjet users to experience the latest in advanced abrasive waterjet technology.

Precise, intuitive, quality waterjet cutters

OMAX Corp, a Hypertherm Company, is the manufacturer of easy-to-use abrasive waterjet machines, water jet cutters, and personal water jet cutting machines for precision cutting and machining of ...

OMAX Waterjets

Utilizing the most advanced computer control system available for abrasive waterjet machines, the OMAX JetMachining Center is accurate, versatile, and fast, machining everything from stainless steel ...

ProtoMAX Abrasive Waterjet

Bringing all the versatility benefits of large abrasive waterjet cutters together in a sleek and economic package, this machine is ideal for prototyping or as a complement to a larger machine shop.

Home Energy Storage (Stackble system)

- High Efficiency
- Easy installation
- Safe and Reliable
- Perfect Compatibility

Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimizer
- Integrated with inverter to avoid the compatibility problem
- LFP battery, safest and long cycle life
- Stackable design for easy installation
- Capable of High-Powered Emergency-Backup and Off-Grid Function

Learn about waterjets

WHAT IS A WATERJET? A waterjet utilizes a high pressure stream of water to erode a narrow line in the stock material. Because the abrasive is added at the nozzle, it is simple to switch between water ...

OptiMAX Abrasive Waterjets

The OMAX OptiMAX is the culmination of three decades of engineering expertise and experience, resulting in the world's most advanced waterjet designed for maximum uptime in any manufacturing ...

How do waterjets work?

In order for the abrasive waterjet nozzle to cut efficiently and to increase component life, it is critical that the jewel orifice is carefully aligned in the nozzle body. All OMAX nozzles are factory-aligned and ...
